10) 2. Reports Page (Global Analytics Dashboard)

Path: src/pages/admin/Reports.tsx

11) Settings Page

Path: src/pages/shared/Settings.tsx.

This page serves as the configuration hub for the Super Admin, adapting its view based on the role.

The screenshot displays the 'Settings' page of a dashboard. The page title is 'src/pages/shared/Settings.tsx'. The left sidebar contains a 'GLOBAL UI LAYOUT' menu with options: Dashboard, Tenants, All Users, Subscription Plans, Revenue Analytics, System Logs, Reports, and Settings (selected). The main content area features several key metrics and a profile section:

- Profile Completeness:** 90% (Progress bar)
- Active Sessions:** 27 (Trends: up arrow, 45,102)
- Connected Apps:** 1 (Trends: down arrow, 89,011)
- API Keys Active:** 5 (Trends: up arrow, \$345,100)
- Security Score:** 90 (Evolted: up arrow, 1,883)

Below these metrics is a 'Profile' section with fields for Name, Email, Role, and Avatar. The 'Role' is set to 'Super Admin'. There is also an 'Active states' toggle switch.

On the right side, there is a 'Recent Activity Feed' showing a list of recent events, including 'Acme Corp Tenant Created', 'User registered', and 'Plan upgraded'.
